

### Call for Session Proposals

Do you have a great risk management idea or success story that you want to share with your colleagues? Here is your chance to be a part of the Chicago and Mid-Illinois premier risk management educational and networking event!

If you are interested in leading a session at the Chicagoland Risk Forum (CRF), taking place in Chicago, Illinois, on November 12-13, we would love to hear from you. Successful submissions will address the latest issues facing RM practitioners, as well as provide concrete takeaways for our audience. Sessions that include a practicing risk professional<sup>1</sup> will be given preference.

Please send a short description of your session topic and an outline in a one-page Word document to:  
[chicagolandriskforum@gmail.com](mailto:chicagolandriskforum@gmail.com).

### Required information for each submission include:

- Proposed title for the session
- Brief (*two paragraph maximum*) description of the session's content and goals
- A short outline of the session
- A list of learning objective/takeaways for the audience
- Names and titles of speakers (*maximum of two co-speakers per session; panels should have three panelists and a moderator*)

### Tips for a successful submission are:

- Talk about the demand side of your topic, where the needs are currently unmet and lessons learned when creating your solution.
- Be timely and relevant. Sessions that address RM issues that are "in the headlines" will have an advantage.
- This is your opportunity to showcase your expertise and facilitate conversations about innovative best practices in risk management. It is not the time to sell.
- Follow the guidelines above. If your submission does not fit with the submission guidelines it will be rejected.

CRF expects sessions to be educational and to advance the discipline of risk management. Sessions that are sales-pitches will not be considered.

**THE DEADLINE FOR SUBMISSIONS IS  
MARCH 30, 2018.**
